

[QUIZ] What's Your #1 Business Time Killer?
Stage 1

BUCKET B

The Admin Spiral

"I'm always doing — but never making progress on what matters."

WHO THEY ARE

Operations-heavy owners, consultants, agencies, and service businesses who are consumed by the operational machinery of their business. They spend hours writing proposals, generating reports, managing email, producing documentation, and handling repetitive business processes that should be systematised.

They often feel trapped doing \$20/hour work while their \$200/hour thinking sits untouched. They know the fix is delegation or automation — but haven't found a fast, affordable, reliable path to either.

OUTCOME PAGE DIAGNOSIS

The Admin Spiral is one of the most expensive time killers in small business — because it's invisible. You don't see it as a problem; you see it as work. But every hour spent manually writing proposals, reports, and routine communications is an hour not spent on growth.

The good news? Most admin tasks follow repeatable patterns. That means AI can handle them in minutes — not hours. The right prompt framework turns your 3-hour proposal into a 20-minute process, with higher-quality output.

HERO IMAGE

The Admin Spiral ends here — AI prompts that cut your operational overhead in minutes, not hours.
