Layered and
Actioned.

YOUR BUSINESS, LAYERED AND ACTIONED ONE SECTOR AT A TIME

30 Industry-Specific AI Prompt Packs • One Business DNA Profile • 1,500 Ready-to-Run Prompts

A Next Steps Guide from the Super AI Prompt Creator

Expert AI Prompts • 19 Aug 2026

You've Built Your Business DNA. Now Put It to Work Everywhere.

You've already done the hard part. Your Business DNA — captured by voice in Tool 1, validated in Tool 2 — now powers Tool 3's 5 built-in Structured Prompts: Business Model Canvas, Google Business Profile, LinkedIn All-Star, LinkedIn Company Page, and Customer Journey & Keywords. That's the starting line, not the finish line.

One DNA Profile. 30 Industry Packs. 1,500 Prompts.

The same binding mechanism that fills in your 5 built-in templates works on any Structured Prompt you import into Tool 3 — including every prompt inside Expert AI Prompts' full catalog of 30 industry-specific packs, ~50 prompts each, across categories from Coaching to SEO to Social Media. Import a prompt, hit Bind Variables, and your DNA fills every bracket automatically. No re-describing your business, pack after pack.

How it works: Buy a pack → import a prompt via "Import Structured Prompt" in Tool 3 → Bind Variables → QA confirms every field is filled → Execute. Same 4 steps as your built-in templates, every single time.

Work Across Your Business, One Sector at a Time

Thirty packs is a lot to take on at once — and you don't need to. Here's a suggested order, grouped into four phases, so each pack you buy builds on the last instead of competing for attention.

Phase 1 — Foundation — Position & Sound Like You

Branding & Strategy · Coaching & Consulting

Lock in how your business talks about itself before you scale output. These packs turn your DNA into taglines, About sections, brand voice guardrails, and (if you coach or consult) client-facing frameworks.

Phase 2 — Get Found & Get Leads

Copywriting & SEO · Marketing & Agencies

With your positioning set, put it to work generating demand — SEO content, ad copy, sales pages, email sequences, and campaign/agency-scale marketing prompts, all still bound to the same DNA.

Phase 3 — Build Your Content Engine

Content Creation & Social Media

The largest category (8 packs) — social, YouTube, TikTok, LinkedIn, podcast, blog, and newsletter prompts. Pick the 1-2 channels that matter most to your audience rather than running all eight at once.

Phase 4 — Scale & Systemize

Business Growth & Startups · Niche Industries & Skills

Once the content engine is running, layer in growth and operational prompts — course/digital product creation, freelance and startup playbooks, plus niche packs for Realtor, Etsy, and Resume use cases if they fit your business.

The Full Catalog

All 30 packs, grouped exactly as they appear at expertaiprompts.com/pricing. Each link goes straight to that pack's sales page — not a direct file download — so you always land on the full offer, pricing, and guarantee before buying.

How to Bind Your DNA to Any Pack

Step 1 — Buy the Pack

Choose a pack from the catalog above (or expertaiprompts.com/pricing) and complete checkout. You'll land on that pack's Thank You page with your download.

Step 2 — Open Tool 3

Go to expertaiprompts.info/super-ai-prompt-creator/ and upload your four Level 2 DNA exports in Module 1, same as always.

Step 3 — Import a Prompt from the Pack

Copy any single prompt from your new pack into Tool 3's "Import Structured Prompt" box (as a .txt/.prompt file, or pasted directly).

Step 4 — Bind, QA, Execute

Click Bind Variables. If the pack's prompt uses [BRACKET] placeholders matching your DNA fields (see the Quick Start Guide's variable reference table), they fill automatically; every imported prompt also gets your DNA Context Block prepended regardless, so it's never generic. Execute in ChatGPT, Claude, or Gemini as usual.

Tip: start with one prompt from a pack before running all ~50 — confirm the bracket names line up with your DNA, then move through the rest of the pack quickly once you know it binds cleanly.

Pricing & Value

Tier	Price	What it means
Entry	\$37	Most single-industry packs — Etsy, Resume, Influencer, Podcast, Freelancer, Course Creator, and more.
Mid-tier	\$47 – \$49	Higher-complexity or higher-demand packs — Coaching, SEO, Social Media, Startup, Branding, and most Marketing packs.
Premium	\$97	The most comprehensive packs — Agency Growth and The Prompt Engineering Edge.

There is currently no bundled multi-pack discount on expertaiprompts.com/pricing — each pack is priced and purchased individually, which is exactly why the phased roadmap on page 3 matters: buy the 2-3 packs that match your next sector, prove the DNA-binding workflow on them, then move to the next phase.

Frequently Asked Questions

Do I need to re-enter my DNA for every pack? No. Your four Level 2 exports stay uploaded in Tool 3 for the session; every prompt you import from any pack binds to the same DNA automatically.

Can I try a pack's style before buying? Each sales page (linked in the catalog above) previews the pack's content and prompt count before checkout.

What if a pack's prompts don't use [BRACKET] placeholders? They still work — Tool 3 prepends a labelled DNA Context Block to every imported prompt regardless of bracket syntax, so the AI always has your business context.

Do I have to follow the 4-phase order? No — it's a suggestion to avoid overwhelm, not a requirement. Buy whichever pack solves your most urgent problem first.
