

The Voice-DNA System

Your Business, Captured Once. Every Prompt, Personalized.

Tired of re-explaining your business to every AI tool, then rewriting the generic draft it hands back? The Voice-DNA System captures your business identity once — and every AI prompt after that already knows exactly who you are.

GOALS

- ▶ Capture your business identity once — a single ~10-minute voice conversation.
- ▶ Turn it into ready-to-run, on-brand AI prompts. No re-explaining. No generic drafts.
- ▶ Build a reusable Business DNA asset that keeps improving every output.

DELIVERABLES

- ▶ A validated Business DNA export — purpose, persona, value proposition, brand voice.
- ▶ Six ready-to-use documents on tap (see back) — Business Model Canvas to a full customer journey map.
- ▶ Access to 1,500 structured prompts across 30 industries.

BENEFITS

- ▶ **Speed** — same-day output. Proof: 62 business & compliance documents in 7 hours.
- ▶ **Accuracy** — ~99% first-pass quality. Runs on your real DNA, not a template.
- ▶ **Free to start** — no cost barrier to Tool 1, 2, 3.

THE 3-STEP PIPELINE

HUB Voice-DNA System — Start Here

expertaiprompts.info/voice-dna-system/

The full 3-step system, explained end to end.

1 · CAPTURE Voice Onboarding Tool

expertaiprompts.info/voiceonboardingtool/

A short voice interview captures your Business DNA — no forms, no blank page.

2 · VALIDATE Tri-Backlog Resolver

expertaiprompts.info/tri-backlog-resolver/

Closes the gaps. Locks in decisions. Exports one validated DNA file.

3 · CREATE Super AI Prompt Creator

expertaiprompts.info/super-ai-prompt-creator/

Binds your DNA into ready-to-run prompts — 5 built-in templates or 1,500 more.

The screenshot shows the Expert AI Prompts website interface. At the top, the logo 'EXPERT AI PROMPTS' and tagline 'The Voice-DNA System' are on the left, and navigation links 'Tool 1', 'Tool 2', and 'Tool 3' are on the right. Below the header, a progress bar indicates 'CAPTURE · VALIDATE · CREATE'. The main headline reads 'Your Business, Captured Once. Every Prompt, Personalized.' followed by a sub-headline: 'Three connected tools turn a single voice conversation into structured, on-brand AI prompts — so you never re-explain your business to a chat window again.' The central part of the page features three tool cards arranged horizontally, connected by arrows. The first card, 'STEP 1 · CAPTURE Voice Onboarding', describes a short voice interview to capture Business DNA and includes a 'Start Tool 1 →' button. The second card, 'STEP 2 · VALIDATE Tri-Backlog Resolver', describes resolving open questions and compiling a validated Business DNA export, with an 'Open Tool 2 →' button. The third card, 'STEP 3 · CREATE Super AI Prompt Creator', describes binding DNA into ready-to-run prompts and includes a 'Launch Tool 3 →' button.

DEFINE

What Each Document Does For Your Business

Every document below is generated straight from your Business DNA — no blank template, no generic filler.

- 1 Business Model Canvas** — A 9-box strategic snapshot of how your business actually makes money — partners, value proposition, channels, revenue — built from your DNA in one pass. Ready for any investor or referral conversation.
- 2 Google Business Profile** — How your business appears on Google Maps and in Google Search — a complete GBP package: SEO description, services, Q&A, and 10 ready-to-post weekly updates. Your customers' first impression, done right.
- 3 LinkedIn All-Star Profile** — Headline, About, Experience, and Featured content, plus a Skills list chosen for what's actually searchable on LinkedIn — not just relevant. Ranks higher, converts more views into conversations.
- 4 LinkedIn Company Page** — Tagline, About, Specialties, and 5 reusable post templates in a proven 70/20/10 content mix. Turns a static listing into a content engine.
- 5 Customer Journey, Keywords & Headlines** — A 5-stage funnel map with 25 mapped keywords and 25 SEO headline starters. Know exactly what to write, and what to call it, at every stage.

★ 6th COMMAND CENTER ACTION — Import Structured Prompt

Load any of 1,500 external prompts — or your own — straight into the system. It binds to your DNA exactly like a built-in template.

Example — ready to paste into Import Structured Prompt:

```
Act as: A thought leader in [industry].
Keyword Topic: [Current news in industry]
Task: Write 5 short-form [Social Media] posts on this topic.
Tone: Helpful and credible.
Length: 150 words each.
Constraints: No industry jargon.
Output: 5 numbered posts in one document, including word counts.
```

Your Business, Captured Once. Every Prompt, Personalized.
