

Your Session Guide

Answer 4 short voice interviews. In your own words.

You're about to turn one short conversation into your Business DNA. Here's exactly what to do — keep this page beside you while you talk.

BEFORE YOU START

A 60-second check before you begin:

- Gemini app installed and signed in
- Microphone permission allowed
- Phone charged, or a charger nearby
- A reasonably quiet spot to talk

YOUR TWO SCREENS

CONTROL SCREEN

Your browser, at expertaiprompts.info/voiceonboardingtool/. This is where you copy prompts and save your answers.

VOICE SCREEN

The Gemini app on your phone. This is where you actually talk.

YOUR 4 STEPS

1 • COPY

Copy the prompt from your Control Screen.

2 • TALK

Paste it into Gemini and answer out loud, naturally.

3 • COPY ANSWER

Copy Gemini's finished answer.

4 • SAVE

Paste it back into your Control Screen and save.

Repeat these 4 steps four times — once for each part of your Business DNA: Who You Are → Your Customer → Your Value → Your Brand.

SWITCHING APPS ON ONE PHONE

If you're doing this on a single phone:

- Modern phone: swipe your thumb left or right along the very bottom edge of the screen to jump between apps.
- Older phone: double-tap Recent Apps (Android) or double-click Home (iOS), then tap the other app.

If You Get Stuck

Quick answers if anything feels off during your session.

1

IF GEMINI WON'T STOP ASKING QUESTIONS

It sometimes wants more detail than it needs. Say this out loud, and it will wrap up and generate your summary:

"That is all the information I have, please generate the final summary document now."

2

IF YOU LOSE YOUR PLACE

Nothing is lost if the screen locks, the app closes, or the call drops. Your answers are saved automatically — just reopen the same page and pick up where you left off.

3

YOUR DATA

Everything stays in your own browser, on your own device. Nothing is uploaded to a server while you're mid-conversation.

WHAT HAPPENS NEXT

Your four answers become your Business DNA export. See the enclosed flyer for exactly what gets built from it — six ready-to-use documents, on tap.

Your Business, Captured Once. Every Prompt, Personalized.
